Mr. Seed Dealer-

This ad appearing currently in Market Growers Journal is a part of Corneli's national advertising to help you sell more KEYSTONE Seeds.

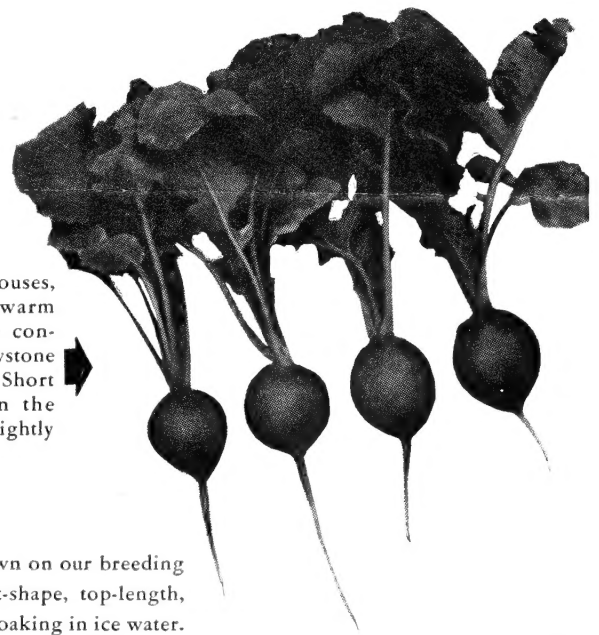

Order some of these fine strains of Keystone Radish Seed now along with any other seed needed.

GET BIGGER RADISH CROPS

—Through greater uniformity

Thousands of acres are planted each season in the Southern shipping areas with this fine Keystone strain of Vick's Scarlet Globe Medium Top, the leading Winter and early Spring radish. It is characterized by the brilliant scarlet or cherry red color—olive-shape, small, slender tap root and fine top.

For forcing in frames or hothouses, or for market growing in warm weather, top length can be controlled best by using the Keystone Early Scarlet Globe Special Short Top—equally attractive on the market with shorter top and slightly more globular shape.

Stock seed for these two famous strains is grown on our breeding farms from plants carefully selected for root-shape, top-length, general uniformity and, finally, for color after soaking in ice water.
